

Privacy Policy

My website address is <https://www.dawnpearcey.com>.

I have an SSL (Secure Sockets Layer) Certificate installed through Really Simple SSL plugin for WordPress.

I use your Personal Information only for providing and improving my Site. By using my Site, you agree to the collection and use of information in accordance with this policy.

Information Collection And Use

While using my Site, I may ask you to provide me with certain identifiable information that can be used to contact or identify you. Personally identifiable information may include, but is not limited to, your name and email address (“Personal Information”).

Analytics

Like many site operators, I collect information that your browser sends whenever you visit my Site (“log Data”). This Log Data may include information such as your computer’s Internet Protocol (“IP”) address, browser type, browser version, the pages of my Site that you visit, the time and date of your visit, the time spent on this pages and other statistics. I use the Jetpack WordPress Plugin for basic stats about site traffic.

Comments

When visitors leave comments on the site I collect the data shown in the comments form, and also the visitor’s IP address and browser user agent string to help spam detection.

An anonymized string created from your email address (also called a hash) may be provided to the Gravatar service to see if you are using it. The Gravatar service privacy policy is available here: <https://automattic.com/privacy/>. After approval of your comment, your profile picture is visible to the public in the context of your comment.

Cookies

If you leave a comment on my site you may opt-in to saving your name, email address and website in cookies. These are for your convenience so that you do not have to fill in your details again when you leave another comment. These cookies will last for one year.

If you have an account and you log in to this site, we will set a temporary cookie to determine if your browser accepts cookies. This cookie contains no personal data and is discarded when you close your browser. When you log in, we will also set up several cookies to save your login information and your screen display choices. Login cookies last for two days, and screen options cookies last for a year. If you select "Remember Me", your login will persist for two weeks. If you log out of your account, the login cookies will be removed.

If you leave a comment, the comment and its metadata are retained indefinitely. This is so we can recognize and approve any follow-up comments automatically instead of holding them in a moderation queue.

Visitor comments may be checked through an automated spam detection service. I collect information about visitors who comment using my Akismet anti-spam service. The information collected depends on how the User sets up Akismet for the Site, but typically includes the commenter's IP address, user agent, referrer, and Site URL (along with other information directly provided by the commenter such as their name, username, email address, and the comment itself).

Thank you for reading and visiting my site.
